

Testimonials from Couples.

We just got home from the most amazing photographic safari and hunt. Our hosts, Annamarie and Geoffrey were just awesome! It put etchings on our minds that will last a lifetime! Thanks for the best ever experience! *Ronda Nichols, Michigan*

We have had a fabulous vacation; each day was a new adventure. Each day was a little bit better than the one before. The laughter, the excitement, the personal attention and the concern for our well being made us feel so welcome and secure. Thank you for your patience. With heartfelt gratitude from *Patti and Brian Blegen & Sue and Perry Humble, Minnesota*

Not a day passes that we don't think about our experience we had at your farm and we cannot thank you enough. I have re-lived the hunts with so many people and believe it or not the animals have not grown in size. *Ron and Sue Stalder, Iowa*

We have thought long and hard about how we could possibly thank you for allowing us one, if not the best, holiday of our lives. We are still talking about it every day. We love Fort Richmond and it has become part of who we are. We will be forever grateful for the experience!
Peter and Kristin Dolan, Pennsylvania

Best wishes to you both! Our time on our hunt with you remains one of the greatest times of our life!
Peter and Kristin Dolan, November 2014

Annamarie and Geoffrey words cannot express our gratitude to you both! This has been a dream vacation for us and you made it so wonderful! Your personal touch is heart-warming...
Thank you so very much. *Scott and Shawn Lucas, Iowa*

Absolutely thank you for our time spent with you at Fort Richmond. My response to anyone who asks is that you provided everything and more than we expected from our hunt and trip as a whole. I do not hesitate to recommend you to others and we plan on a return.
Gary and Jennifer Stalder, Kansas

"As a non-hunter I had no idea what I would find there, what I would do, or how I would react ... You can't imagine the feeling you get when you see the first herd of zebra in their natural habitat, or when you spot gemsbok, blesbok, or wildebeest ... Everything you have heard about African sunsets is true — they are intense. You don't have to be a hunter to enjoy the beauty of South Africa, the breathtaking scenery, the peace and serenity of being away from the hustle and hurriedness of home. Every turn was something new and breathtaking!" *Louise Vermillion, Michigan*
